Address

Lviv, Ukraine

Summary

I am creative, well-motivated, proactive, communicative, flexible, goal-oriented, organised, good at time management person who specializes in testing (QA engineer). Has an experience in creating test documentation (including test plans, test cases, checklists, bug reports, etc). Has a good understanding of testing types/approaches, requirements and methodologies. Aiming to leverage my abilities to successfully fill the QA Engineer role at your company. That's why, I'm open for your offer.
